Controlled networks | Technology Focused Cloud Driven.

HPE ENTERPRISE ENGINEERS

WHAT WE DESIGN, SUPPLY AND SUPPORT

| | |
|---|---|
| SERVERS | ProLiant · Synergy · SimpliVity · Superdome |
| STORAGE | 3PAR · Nimble · Primera · Alletra · Alletra MP |
| SERVICES | Design, installation, migration and support |
| HOW YOU PAY | Buy it, or rent it for a monthly fee |

HPE SERVERS & STORAGE

# Tell us what you need. Our HPE engineers will design it.

CNS is a team of HPE enterprise engineers with over 30 years of experience, and more than 150 years of experience combined. We design, supply and support HPE server and storage infrastructure, from a single ProLiant to Superdome and Alletra MP.

## WHY COMPANIES BRING THEIR HPE PROJECTS TO CNS

01

### 30+ years on HPE platforms

Our engineers have worked on HPE servers and storage for three decades, generation after generation.

02

### 150+ years of combined experience

A senior team, so the person designing your system has seen your problem before.

03

### Designed for you, not from a catalog

We start from your workloads and growth, then choose the platform that fits.

**Tell us your needs. We design the rest.**

# The HPE platforms we specialize in

Servers and storage for every size of environment, designed, installed and supported by the same engineers.

### HPE ProLiant servers

Rack and tower servers for virtualization, databases and everyday business applications.

### HPE Synergy

Composable infrastructure: compute, storage and network managed as one flexible pool.

### HPE SimpliVity

Hyperconverged systems that put servers, storage and data protection in one platform.

### HPE Superdome

Scale-up servers for the largest databases and mission-critical workloads.

### HPE 3PAR, Nimble and Primera

Support, troubleshooting and performance tuning for the arrays you run today, and a migration plan when it is time.

### HPE Alletra and Alletra MP

Current-generation all-flash storage, sized for your capacity, performance and growth.

## WHERE A DESIGN USUALLY STARTS

| YOUR NEED | SERVERS | STORAGE |
|---|---|---|
| **Virtualization and business apps** | ProLiant | Alletra or Alletra MP |
| **Branch and remote offices** | SimpliVity or ProLiant | Built into SimpliVity |
| **Large databases, mission-critical** | Superdome or ProLiant | Alletra MP |
| **Many workloads that keep changing** | Synergy | Alletra MP |
| **Aging 3PAR, Nimble or Primera** | Your existing servers | Migration to Alletra MP |

## HOW WE WORK

01

### Tell us

Your applications, users, growth and budget.

02

### We design

A written design and quote, sized to your needs.

03

### We deliver

We supply, install, configure and migrate.

04

### We support

The same engineers stay with you afterwards.

## Tell us what you need.

Send us your requirements or your current environment. We reply with a design that meets your needs, to buy or to rent.
